**CITATION NO. 03-11-19C-003  
LEAD AND COPPER MONITORING VIOLATION  
FOR 2018**

Enclosed is Citation No. 03-11-19C-003 (hereinafter "Citation"), issued to the City of Gustine (hereinafter "System") public water system. Please note that there are legally enforceable deadlines associated with this Citation.

The System will be billed at the State Water Resources Control Board's (hereinafter "State Water Board") hourly rate for the time spent on issuing this Citation. California Health and Safety Code (hereinafter "CHSC") Section 116577 provides that a public water system must reimburse the State Water Board for actual costs incurred by the State Water Board for specified enforcement actions, including preparing, issuing and monitoring compliance with a citation. At this time, the State Water Board has spent approximately 2.0 hours on enforcement activities associated with this violation.

The System will receive a bill sent from the State Water Board in August of the next fiscal year. This bill will contain fees for any enforcement time spent on the System for the current fiscal year.

Any person who is aggrieved by a citation, order or decision issued under authority delegated to an officer or employee of the state board under Article 8 (commencing with CHSC, Section 116625) or Article 9 (commencing with CHSC, Section 116650), of the Safe Drinking Water Act (CHSC, Division 104, Part 12, Chapter 4), may file a petition with the State Water Board for reconsideration of the citation, order or decision.

Petitions must be received by the State Water Board within 30 days of the issuance of the citation, order or decision by the officer or employee of the state board. The date of issuance is the date when the Division of Drinking Water mails a copy of the citation, order or decision. If the 30th day falls on a Saturday, Sunday, or state holiday, the petition is due the following business day by 5:00 p.m.

Information regarding filing petitions may be found at:

STATE WATER RESOURCES CONTROL BOARD  
DIVISION OF DRINKING WATER

**Name of Public Water System:** City of Gustine

**Water System No:** 2410003

**Attention:** Mr. Dan Arnold, Public Works Director

P.O. Box 16

Gustine, CA 95322

**Issued:** January 18, 2019

CITATION FOR NONCOMPLIANCE  
CALIFORNIA CODE OF REGULATIONS,  
TITLE 22, SECTION 64675 AND 64675.5

LEAD AND COPPER MONITORING VIOLATION

2018

The California Health and Safety Code (hereinafter "CHSC"), Section 116650 authorizes the State Water Resources Control Board (hereinafter "State Water Board"), to issue a citation to a public water system when the State Water Board determines that the public water system has violated or is violating the California Safe Drinking Water Act (hereinafter "California SDWA"), (CHSC, Division 104, Part 12,

Chapter 4, commencing with Section 116270), or any regulation, standard, permit, or order issued or adopted thereunder.

The State Water Board, acting by and through its Division of Drinking Water (hereinafter "Division"), and the Deputy Director for the Division, hereby issues Citation No. 03-11-19C-003 (hereinafter "Citation"), pursuant to Section 116650 of the CHSC to the City of Gustine (hereinafter "System"), for violation of California Code of Regulations (hereinafter "CCR"), Title 22, Section 64675 and 64675.5

### STATEMENT OF FACTS

The System is classified as a community public water system with a population of 5,546, serving 1,878 connections. The System operates under Domestic Water Supply Permit No. 03-11-14P-003 issued by the State Water Board on February 13, 2014.

CCR, Title 22, Chapter 17.5 requires that public water systems maintain a monitoring program for lead and copper levels at the consumers' tap. The minimum number of tap sample sites required for the public water system is based on the population served and whether the public water system is on an initial, a standard or a reduced monitoring schedule. The samples shall be collected during the months of June, July, August, or September. The triennial monitoring schedule for the System was twenty (20) lead and copper samples due between June 1 and September 30, 2018.

The Lead and Copper Rule Reporting Form must also be completed and submitted to the State Water Board no later than the 10<sup>th</sup> day of the month after the end of each period during which such sampling or monitoring was conducted.

## DETERMINATION

The System was required to collect a minimum of twenty (20) lead and copper samples twenty June 1 and September 30, 2018. The System failed to collect the required number of lead and copper analytical samples in months of June, July, August or September of 2018. Between June 1 and September 30, 2018, the System collected only nine lead and copper samples. The sixteen additional samples were collected between October 1 and November 7, 2018. Therefore, the State Water Board has determined that the System has failed to comply with CCR, Title 22, Section 64675 during 2018.

## DIRECTIVES

The System is hereby directed to take the following actions:

1. The System must ensure that its lead and copper monitoring program is maintained in accordance with the Lead and Copper Rule (CCR, Title 22, Sections 64670 through 64690.80) and that the analytical results are reported to the State Water Board by the 10<sup>th</sup> day of the month after the end of each period during which such sampling or monitoring was conducted. Appendix 1: Lead and Copper Rule Reporting Form must also be completed and submitted to the State Water Board by the 10<sup>th</sup> day of the month after the end of each period during which such sampling or monitoring was conducted.
2. By **July 1, 2019**, notify all persons served by the System of the violation of CCR, Title 22, Section 64675, in conformance with Sections 64463.7 and 64465.

Section 64463.7 allows the System to utilize the 2018 Consumer Confidence Report to meet the requirement of notification within a one-year period. In

1 addition to the required information for the Consumer Confidence Report, the  
2 System must include the following language in the Consumer Confidence  
3 Report: *"We are required to monitor your drinking water for specific  
4 contaminants on a regular basis. Results of regular monitoring are an indicator  
5 of whether or not your drinking water meets health standards. During 2018, we  
6 did not complete all monitoring for lead and copper and therefore, cannot be  
7 sure of the quality of your drinking water during that time"*

8  
9 3. Complete Appendix 1: Compliance Certification Form. Submit it together with  
10 a copy of the 2018 Consumer Confidence Report required by Directive 2 to the  
11 State Water Board on or before **July 1, 2019**.

12  
13 4. The System must collect twenty (20) lead and copper samples between the  
14 months of June 1<sup>st</sup> and September 30<sup>th</sup>, 2019. Appendix 2: Lead and Copper  
15 Rule Reporting Form shall be used to submit the results of this monitoring to  
16 the State Water Board no later than **October 10, 2019**.

17  
18 5. By **February 28, 2019**, complete and return to the State Water Board the  
19 "Notification of Receipt" form attached to this Citation as Appendix 3.  
20 Completion of this form confirms that the System has received this Citation and  
21 understands that it contains legally enforceable directive(s) with due dates.

22  
23  
24 All submittals, required by this Citation, unless otherwise specified in the directives  
25 above, must be electronically submitted to the State Water Board at the following  
26 address. The subject line for all electronic submittals corresponding to this Citation  
27 shall include the following information: Water System name and number, citation  
28 number and title of the document being submitted.

The State Water Board reserves the right to make modifications to this Citation as it may deem necessary to protect public health and safety. Such modifications may be issued as amendments to this Citation and shall be effective upon issuance.

Nothing in this Citation relieves the System of its obligation to meet the requirements of the California SDWA (CHSC, Division 104, Part 12, Chapter 4, commencing with Section 116270, or any regulation, standard, permit or order issued or adopted thereunder.

#### **PARTIES BOUND**

This Citation shall apply to and be binding upon the System, its owners, shareholders, officers, directors, agents, employees, contractors, successors, and assignees.

#### **SEVERABILITY**

The directives of this Citation are severable, and the System shall comply with each and every provision thereof notwithstanding the effectiveness of any provision.

#### **FURTHER ENFORCEMENT ACTION**

The California SDWA authorizes the State Water Board to: issue a citation or order with assessment of administrative penalties to a public water system for violation or continued violation of the requirements of the California SDWA or any regulation, permit, standard, citation, or order issued or adopted thereunder including, but not

1 limited to, failure to correct a violation identified in a citation or compliance order. The  
2 California SDWA also authorizes the State Water Board to take action to suspend or  
3 revoke a permit that has been issued to a public water system if the public water  
4 system has violated applicable law or regulations or has failed to comply with an order  
5 of the State Water Board, and to petition the superior court to take various  
6 enforcement measures against a public water system that has failed to comply with  
7 an order of the State Water Board. The State Water Board does not waive any further  
8 enforcement action by issuance of this Citation.

### Sampling Site Change

Each round of sampling should be conducted at the same sampling sites. If an original sampling site is not available, you should collect a tap sample from another site meeting the same Tier criteria as the original site.

You must complete/submit the **Lead and Copper Tap Sampling Site Change** form.

---

### Notification of Results

As required by *40 Code of Federal Regulations Section 141.85(d)*, within 30 days of learning of the tap monitoring results, I notified the participants, by mailing or by another method approved by the State, of the lead sample results from their individual taps, provided an explanation of the health effects of lead, listed steps the consumer could take to reduce exposure to lead, provided contact information for the water utility, the maximum contaminant level goal for lead, action level for lead, and any definitions.
